AllDayRTK New Zealand Network Expansion Connection Settings

Please Read: Important Information

1 What

The AllDayRTK team advises that there will be an expansion of the AllDayRTK New Zealand network with the incorporation of base stations from the former Synergy Skynet network.

As part of offering a homogeneous network to users, a new service incorporating both sets of base stations have been created.

All base stations have also undergone geodetic reprocessing based off the latest updated coordinates published in LINZ's geodetic database.

To assist existing users in transitioning to the new service, both services will be run in parallel for a period before the old service is decommissioned.

2 When?

Current Service	New Service
Decommissioned 31st June 2025.	Available 2 nd September 2024

3 Impact!

Connection Settings

All users on the current AllDayRTK service will need to update their connection settings to point to the new service before the decommission date.

DNS	Port
nz.alldayrtk.com	2101

Mountpoints

Nearest / Network mountpoint settings will need to be updated.

All direct mountpoints from AllDayRTK New Zealand / Synergy Skynet have been combined and carried over to the new service.

Current Service	New Service
01-NRTK	02-NET_RTCM30
01-NRTK-MSM	02-NET_MSM5
02-AUTOBASE	04-NRST_RTCM30
02-AUTOBASE-MSM	04-NRST_MSM5
